OKS solutions are successfully used in many sectors. Discover the widely varied range of uses and become more closely acquainted with the advantages of suitable special lubricants.

OKS will make your work easier. With 150 quality products, the company has the right lubrication technology solution for virtually every individual case. Select suitable pastes, oils, greases, cleaners, dry lubricants, corrosion protection and maintenance products by sector or area of use.

LOCTITE Corporation began in the Trinity College basement laboratory of Dr. Vernon Krieble from Hartford, Connecticut, in 1953. This enterprising chemistry professor developed a cure inhibition system for a unique bonding resin that hardened in the absence of air- an anaerobic sealant.

LOCTITE® made its official public debut at a press conference at the University Club in New York, on July 26, 1956. The promise of solving the age-old problem of loose nuts and bolts in machines and appliances, a problem customers had long ago accepted as unsolvable, led to an incredible flow of inquiries.

# THE ORIGINAL SPRAY PAINT

We are paint and aerosol paint manufacturer with a reputable history for over 50 years of experience.

Within the premise of about 10 acres, our factory comprises of over 300 ton-capacity propellant and solvent storage tank farms, paint-resin production facilities, and technical R&D center. Together with our selection of the finest ingredients, we can assure that our products are of high quality and yet at a competitive price.

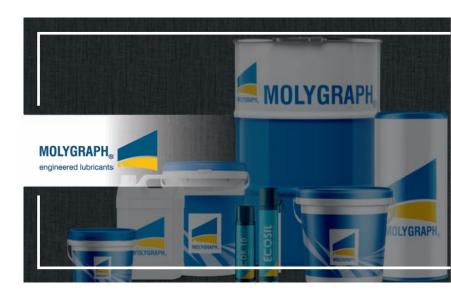

# MULTI-USE **PRODUCT**

WD-40 Multi-Use Product protects metal from rust and corrosion, penetrates stuck parts, displaces moisture and lubricates almost anything.

WD-40 Multi-Use Product Industrial Size is perfect for big jobs that require a large amount of WD-40 Multi-Use Product in one place.

# THE SPECIALITY LUBRICANTS

Our technology has been the cornerstone of our success. Working with different chemistries, base oils and the best additive manufacturers in the world has fostered a culture of innovation at Molygraph. This allows us to sell solutions to customers, add value to their business and work with them through a consultative approach.

# SEALS JOINS FIXES BUILDS

M-seal is a multi-purpose sealant with 4 main applications — sealing, joining, fixing and building. Its versatility and ease of application makes it commonly used across multiple industry segments, as well as households (DIY) who can use it to mend broken articles, fill gaps, cracks and plug leaks in pipes and joints.

M-Seal is a great asset to the plumbing industry and is used by plumbers, plumbing contractors, auto mechanics and households (DIY) for repair and new construction segments.

# INDUSTRIAL ADHESIVES

Astral Adhesives manufactures highly diversified range of adhesives used in varied applications. Our products range from customized Epoxy based adhesives which give excellent strength and bonding characteristics for speciality applications to commodity adhesives based on cyanoacrylates, elastomers, PVA etc. Started in 1987 as a company manufacturing epoxy resins, adhesives were added to our product range in 1993. Based on excellent quality control and R&D facilities, range of adhesives were developed taking various applications areas into consideration...

# AEROSOLS AND PAINT SYSTEMS

ColorMatic - the brand by professionals for professionals. The comprehensive painting system offers perfectly matched, high-grade spray paint quality. The spray heads used allow achieving spraying results like those obtained with a spray gun.

The ColorMatic pre-fill can range includes solventbased or waterbased refillable cans, specifically adjusted to all coating systems of the renowned car repair product manufacturers.
